

I strongly want to express my concern about K-Love being displaced by an LPFM broadcaster providing other broadcasting. K-Love is heard on 96.3, 89.9, and 103.1. K-Love radio has been a real blessing in our family and community because it has replaced a whole lot of the nasty, vulgar language and teachings of the popular music that corrupts our teenagers, as well as the adults in all areas. I believe there should be even more radio stations such as K-Love. You always hear positive talk and encouraging comments from this station. It would be in the best public interest, because it would make people better people, if we could get everyone to listen to positive, clean radio stations, instead of crime, violence, money, and sex in music. Music we listen to highly influences our actions, especially teenagers. I would hate to lose K-Love in my life as a Christian. I support K-Love regularly, in hopes that they can continue to stay on the air for a real long time. Sincerely,  
Tammie Parks, a seriously concerned listener and supporter of K-Love
